

SILESTONE®

A UNIQUE BRAND

Silestone® is a registered trademark of Cosentino S.A., world leader in the production of quartz surfaces, number one in sales of worktops in the USA, Western Europe and in Australia.

Silestone® is a design surface with more than 15 years of experience in the market. Silestone® assures the maximum quality and guarantee through an after-sales service which only a world leader can offer.

Look for our logo on all our products, this is the only guarantee that you are receiving Silestone Quartz, with all the excellence and quality assurance that you can expect from us!

Cosentino, S.A. is the world leader company in quartz surfaces production and natural stone sector (marbles, travertines, limestone, soapstone...)

Thanks to our wide network of warehouses in Spain, Europe, Brazil and USA, we can guarantee a dynamic service and maintain close attention to our customers whether in the retail or commercial sector.

Tried and tested efficacy and safety

- ✓ The Microban® antibacterial protection is distributed evenly throughout all the material, including the surface.
 - ✓ The active substances Microban® contains protect the whole surface. Even areas that are very difficult to reach, such as corners, are protected.
 - ✓ Since the protection is incorporated into the product during the production process, it cannot be eliminated, even when the surface is used constantly. In this way, your Silestone® surface will remain protected during the whole of its useful life.
 - ✓ When the bacteria come into contact with the surface, the Microban® active substances suppress their growth and development.
- The Microban® protection is not a substitute for the routine cleaning of the Silestone® surfaces.

NOW YOUR KITCHEN WORKTOP IS THE MOST HYGIENIC PLACE IN YOUR HOME

New Antibacterial Silestone®

Premium Products. Premium Service

SILESTONE®

A UNIQUE PRODUCT

Silestone® has a sophisticated appearance and involves the touch and weight of natural stone, but with a higher quality.

94% of this stone is natural quartz, one of the most resistant and attractive natural elements that exist. Silestone® makes it possible to create anything from beautiful kitchen worktops to the most innovative commercial projects.

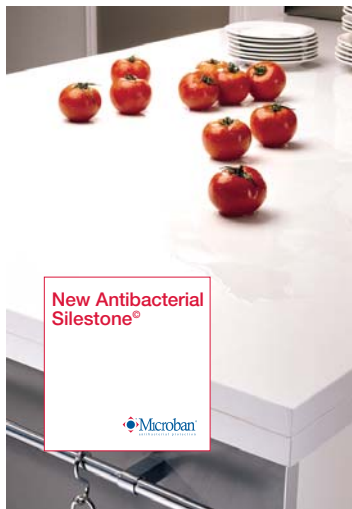

Silestone® is the only quartz surface in the market with antibacterial protection, certified by Microban® and guaranteeing the highest level of hygiene to the Silestone® quartz surface.

LEATHER® THE NEW SILESTONE SENSATION

Silestone® is not just a colour, it is now also a feeling with the new Leather® series.

You will discover a brand new touch sensation with a Leather® quartz surface!

New Antibacterial Silestone®

RIVERS A NEW COLLECTION: RIVERS

Enjoy one of the most elegant and beautiful colour series in the market.

The new colours of the Rivers series are presented with the exclusive Leather® finish of Silestone®.

Muro Programs

ANTIBACTERIAL SILESTONE® MORE HYGIENE MORE PEACE OF MIND

Silestone® worktops now contain Microban® antibacterial protection, which suppresses the growth of potential harmful bacteria such as salmonella, e-coli and listeria.

Silestone® worktops now provide more hygiene because its protection is incorporated in the production process, with each quartz particle being protected.

Several test results from prestigious laboratories prove the antibacterial protection

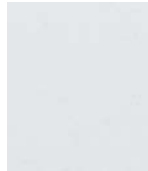

Cosentino presents its innovative system to cover kitchen and bathroom walls with exclusive mosaic designs.

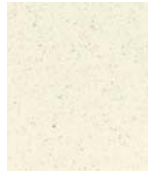

Your kitchen will become the unique personal space that you want, thanks to the different combinations of Silestone® finishes.
